

VOTING BOOTH

You will need:

1. One very large box
 - A refrigerator box works great.
 - The box should be large enough for students to walk into.
2. Paint, Paper, Newspaper
 - Paint or cover the box with your choice of materials.
 - Design posters or flags, etc. and paste them on the booth.
3. Crepe paper streamers
 - Pick colors to go with your election: red/white/blue for a U.S. election or school colors for school elections.

How to make:

1. Cut one side of the box to make an entrance. This can be made into a door or cut out completely.
2. Cover the entrance with streamers that the students can walk through.
3. Use part of the box that you cut out to make a little ledge for students to write on. (tape on with heavy packing tape).
